DETAILED ACTION

Claim Rejections - 35 USC § 103

1. Claims 3 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable by Coats 6,615,848 in view Ames 4,075,862. As concerns claim 3, Coats shows a flowline for producing hydrocarbons from a subsea well that is comprised of a substantially neutrally buoyant tubular composite umbilical means (figures 1-2), whereby the tubular composite umbilical means that contains produced hydrocarbons is substantially neutrally buoyant in the sea water adjacent to the subsea well (abstract) and anchored in one location 48. The buoyant flowline of Coats is capable of being anchored on either ends of a canyon. Ames shows a similar subsea flowline that is neutrally buoyant (in figure 6) and anchored over varying ground conditions subsea.

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Coates, as taught by Ames, to anchor the flowline over canyons to overcome varying subsea conditions, thus improving the versatility and accuracy of laying the flowline (Ames: col. 1, lines 19-33).

Allowable Subject Matter

2. Claims 1, 2, 4, and 5 allowed.

Response to Arguments

3. Applicant's arguments filed 01/26/07 have been fully considered but they are not persuasive and are moot in view of the new grounds of rejection. Applicant argues that the tubular 70 of Coates does not flow hydrocarbons; however, in column 7, lines 35-37 it states that crude and processed crude is flowed, thus hydrocarbon fluid. Thus the rejection stands. Also only a tubular composite umbilical (70) is claimed to be buoyant, thus the claim language does not preclude this interpretation.

4.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
